

Action 1.1 Youth Exchanges Internal Partnership Agreement

Projects supported under Youth Exchanges are transnational and based on the cooperation among two or more promoters.

Among the promoters of a project, the applicant plays a major administrative role; it submits the application form on behalf of all the partners and, if the project is approved:

- bears the financial and legal responsibility for the entire project towards the granting Agency
- coordinates the project in cooperation with all other partner promoters involved
- receives the EU Youth in Action financial support.

However, as regards the implementation of the project, all partners are responsible for carrying out tasks. It is therefore essential that the applicant promoter distributes the EU Youth in Action grant to each of the project promoters in proportion to the tasks they have to carry out.

For this reason, the Commission strongly recommends that all promoters involved in a Youth in Action project sign an *internal partnership agreement* among them; such an agreement has the purpose of clearly defining responsibilities, tasks and financial contribution for all parties involved in the project.

An internal partnership agreement constitutes a key instrument to ensure a solid partnership among promoters in a Youth in Action project as well as to avoid or manage potential conflicts.

Indicatively, it should contain at least the following information:

- project title and reference of the grant agreement between the applicant promoter and the granting Agency
- names and contacts of all the promoters involved in the project
- role and responsibilities of each promoter
- division of the EU YiA grant (according to the above responsibilities)
- payments and budget transfer modalities among promoters
- name and signature of the representative of each promoter.

Although this practice is strongly recommended to safeguard the interests of each partner in a project, the Commission does not oblige promoters to formalise their relations with partners through a written agreement; nor would such an agreement be requested and overseen by the granting National or Executive Agency.

Moreover, it is up to the project promoters to jointly decide on how the EU grant will be distributed and which costs it will cover. With this regard, the table below aims at providing an indication of how the EU grant could be used to support the main tasks carried out based on past experience:
